

# 7th - 12th Grade Summer Math Log

Name \_\_\_\_\_

| Date                | Description of Activity | Time Spent     | Student Signature | Parent/Guardian or Instructor Signature |
|---------------------|-------------------------|----------------|-------------------|---|
| May 31 - June 11    |                         | 1 Hour Minimum |                   |   |
| June 12 - June 25   |                         | 1 Hour Minimum |                   |   |
| June 26 - July 9    |                         | 1 Hour Minimum |                   |   |
| July 10 - July 23   |                         | 1 Hour Minimum |                   |   |
| July 24 - August 15 |                         | 1 Hour Minimum |                   |   |

The Goal: Work on math **THROUGHOUT** the summer. (**Notice the goal is not to panic the day before school starts and cram in 5 hours of math.**)

**Directions:** Practice math for **at least** 1 hour in each of the date ranges above. Describe what skills you practiced. Sign your name and then get a signature for each date range confirming that you completed the work in the actual date range. Give this completed paper to your math teacher in August for a 100% Quiz grade.

**Examples of acceptable activities:** www.khanacademy.com, SAT prep course, working with a tutor, working on problems from a textbook or workbook, etc. Activities should be age/grade appropriate and should be chosen with the mindset of improving your skills!

Students who enroll later in the summer can still get this bonus as long as they meet the minimum 5 hour requirement.

**Due by Monday, August 16, 2021.**

## Summer 2021

### Dear Mighty, Motivated and aMazing Math Students!

Keeping your math skills sharp over the summer is one of the keys to starting the fall semester ready to learn! Grace Prep's summer math assignment gives you the freedom to choose the resources that work for you and flexibility in how you meet your goal! So, how does it work?

**The Goal:** Work on math **throughout** the summer so you are **math ready** for the fall – not to panic the day before school starts and cram in 5 hours of math!

**Directions:** Practice math for at least 1 hour in each of the date ranges on the Summer Math Log, which is attached to this email and posted on the website. To access the log from the website, go to [graceprep.org](http://graceprep.org), click on the small Resources button on the top right of the screen, and click on the Secondary Summer Math tab. Once there, you will see the 7<sup>th</sup>-12<sup>th</sup> Grade Summer Math Log. Print out the log! On the log you will log your hours and describe what skills you practiced. Sign your name and then get a parent signature for each date range, confirming that you completed the work in the actual date range. Give this completed log to your math teacher when school starts in August for a 100% Quiz grade.

**Examples of Acceptable Activities:** The key is to practice math that is ON-LEVEL for you! For example, if you signed up for Pre-Cal in the fall, practicing addition and multiplication facts will not do much to keep your skills sharp! Consider using the following resources: Khan Academy ([www.khanacademy.com](http://www.khanacademy.com)), an SAT prep course or prep book, working with a tutor, working through problems from your last textbook or workbook, etc. Remember that the key is that the activities should be age/grade appropriate and should be chosen with the mindset of improving your skills!

**Have a great summer and come back to school in August MATH READY!**

**Your Grace Prep Math Teachers and Admin Team!**
